About this dashboard
This dashboard analyses global video game sales from 1980 to 2016, covering more than 16,000 games across 31 platforms and 12 genres. It shows which consoles, genres and publishers have driven the industry, and how sales differ across North America, Europe, Japan and other regions. All sales figures are in millions of units sold.
What you will find
• Sales Performance: top platforms, genres and games, regional split, and sales trends over time.
• Publishers & Reviews: leading publishers, sales by ESRB rating, and how critic and user scores relate to sales.
• Insights: a summary of the key findings from the data

Key Insights & Summary
Genre
All
Year_of_Release
All
Sales Overview
• About 8.8 billion units were sold across 1980 to 2016.
• Sales grew quickly from the mid-1990s and peaked at about 672 million units in 2008.
• Sales then declined every year afterward. The 2016 figures are incomplete, so the drop is exaggerated.
• North America is the largest market with about 49% of sales, followed by Europe (27%), Japan (15%) and other regions (9%).
Platforms, Genres & Games
• PlayStation 2 is the top platform with about 1.23 billion units, ahead of the Xbox 360 (961M), PlayStation 3 (931M) and Wii (892M).
• Action is the best-selling genre (about 1.72 billion units), followed by Sports (1.31 billion) and Shooter (1.04 billion). Puzzle and Simulation sell the least.
• Wii Sports is the best-selling game at about 83 million copies, followed by Grand Theft Auto V (57M) and Super Mario Bros. (45M).
Publishers & Reviews
• Nintendo leads all publishers with about 1.8 billion units, followed by Electronic Arts (1.1 billion) and Activision (0.7 billion).
• E-rated (Everyone) games sell the most (about 2.8 billion units), followed by T (Teen) and M (Mature).
• Average critic and user scores are similar across genres, mostly between 65 and 73 out of 100, with Role-Playing rated highest.
• Critic scores are only available for about half of the games, so review comparisons cover a sample.
